6. **UNFINISHED BUSINESS:**

ORDINANCE/FIRST READING: Amendment to Chapter 23, Zoning, of the Code of Ordinances of North Myrtle Beach, South Carolina, revising murals. Mayor Baldwin read the ordinance by title and called for a motion to approve. The motion was made by Councilman Collins and seconded by Councilman Coyne. Councilwoman McCumbee stated she loved the idea of murals, but oversight was needed, and she suggested assigning approval to the Public Arts Commission upon its appointment. Mayor Baldwin agreed and stated that several meetings and a workshop had been held to discuss oversight. Manager Fabbri stated this had been discussed in previous meetings but could be explored further. He noted that oversight and approval of mural content may get into the subjective area. Councilman Skidmore stated he was also concerned and would like to see district areas added and an approval process. Mayor Baldwin noted that murals were currently allowed, and passing this ordinance only allowed businesses to add their name or logo to a mural. Councilwoman McCumbee added that there was an approval process for signs, and she felt there should also be one for murals. Manager Fabbri stated the content of a sign was not regulated, only the size and location. He added that a subjective review board would be a separate process that could be explored at a later date.

Jim Wood, Planning and Development Director, explained the difference between a private mural and a publicly funded mural. He noted that the Public Arts Commission would approve the content of publicly funded murals. He stated this ordinance would allow a business owner to put their name or logo on 10 percent of a mural and that murals were currently allowed. Councilman Coyne noted that putting your business name on a mural created a certain sense of responsibility and ownership of the content. He suggested more research on general guidelines for murals. Director Wood stated that some other municipalities had adopted Community Appearance Boards, and the City had discussed this several times in the past. He added he did not know if the City wanted to add another layer of bureaucracy. Mayor Baldwin asked if the Public Arts Commission could serve in this capacity, and Director Wood stated he was unsure whether the commission could legally serve in that capacity. Councilman Coyne asked if Planning and Development and the Legal Department would put together options and possible framework for Council's consideration. Councilman Collins asked that the report be available before second reading.

Having no further comment from the Council or the public, Mayor Baldwin called for a vote. The motion to approve passed 5-0.

7. **NEW BUSINESS:**

A. MOTION TO APPROVE: 2026 City Council Meeting Schedule. Mayor Baldwin read the item by title and called for a motion to approve. The motion was made by Councilman Collins and seconded by Councilwoman McCumbee. Council Collins asked for clarification on the

notation of 'proposed no meetings due to holidays.' Manager Fabbri stated the schedule was consistent with previous calendars, but Council could schedule meetings at any time.

Having no further comment from the Council or public, Mayor Baldwin called for a vote. The motion to approve passed 5-0.

- B. **ORDINANCE/FIRST READING:** Amendment to the Parkway Group Planned Development District (PDD), revising Parcel Three of the McDowell Corporate Center. Mayor Baldwin read the ordinance by title and called for a motion to approve. The motion was made by Councilman Coyne and seconded by Councilman Skidmore. Mayor Baldwin stated that the PDD was approved as part of the Industrial Park preliminary design and he was satisfied with the design and appearance.

Having no further comment from the Council or public, Mayor Baldwin called for a vote. The motion to approve passed 5-0.

- C. **SECOND PUBLIC HEARING:** Regarding the First Amendment to the Amended and Restated Development Agreement for Bahama Island Phase II. Mayor Baldwin read the item by title. Chris Noury, City Attorney, gave a summary of the amendments to the Development Agreement, including maximum structure height for the piano lots and the survival and enforcement of the Restrictive Covenants. Mayor Baldwin asked if this was approved but was not initially included in the Development Agreement. Mr. Noury confirmed the Development Agreement would be amended to include the items. Councilman Collins noted that this amendment did not increase density but only added height along the waterway. Councilman Coyne stated this would sync the Development Agreement with the Planned Development Agreement.

Having no comment from the public, Mayor Baldwin closed public comment.

- D. **ORDINANCE/FIRST READING:** First Amendment to the Amended and Restated Development Agreement for Bahama Island Phase II and to authorize the City Manager to sign the document on behalf of the City. Mayor Baldwin read the ordinance by title and called for a motion to approve. The motion was made by Councilman Collins and seconded by Councilman Skidmore.

HUMAN RESOURCES REPORT – NOVEMBER 2025

Human Resources employees were busy assisting departments, processing new and separating employees, employee performance appraisals, pay adjustments and **625** applications/resumes were processed. We continued to assist departments on human resources matters including job postings, announcements, job descriptions, evaluations and change of status forms. We assisted employees with health/life insurance, retirement issues and other personnel-related matters.

New employees received orientation sessions throughout the month. Part-time orientations were completed online. Full-time employees attended in-person orientations to receive information about the City and were enrolled in the City's Health and Wellness Program and other benefits.

Performance reviews are now done electronically through Neogov instead of in paper form. Training was provided to managers and supervisors during the last week of October to provide them with instruction and support when navigating the new process of entering and submitting performance reviews.

Police Department employees began their biometrics, physicals, and consultation appointments in November and will continue through the month of January. For these employees to be eligible for the 2026 medical plan rate deduction they must have completed this step of the Wellness Incentive Plan by the January 31st deadline.

Employees were able to complete their Open Enrollment for the Healthcare FSA, Dependent Care FSA, and Sick Leave Bank November 3rd through December 3rd. Support labs were offered by Human Resources November 12th, 18th, 19th, 25th, and December 2nd for those needing assistance.

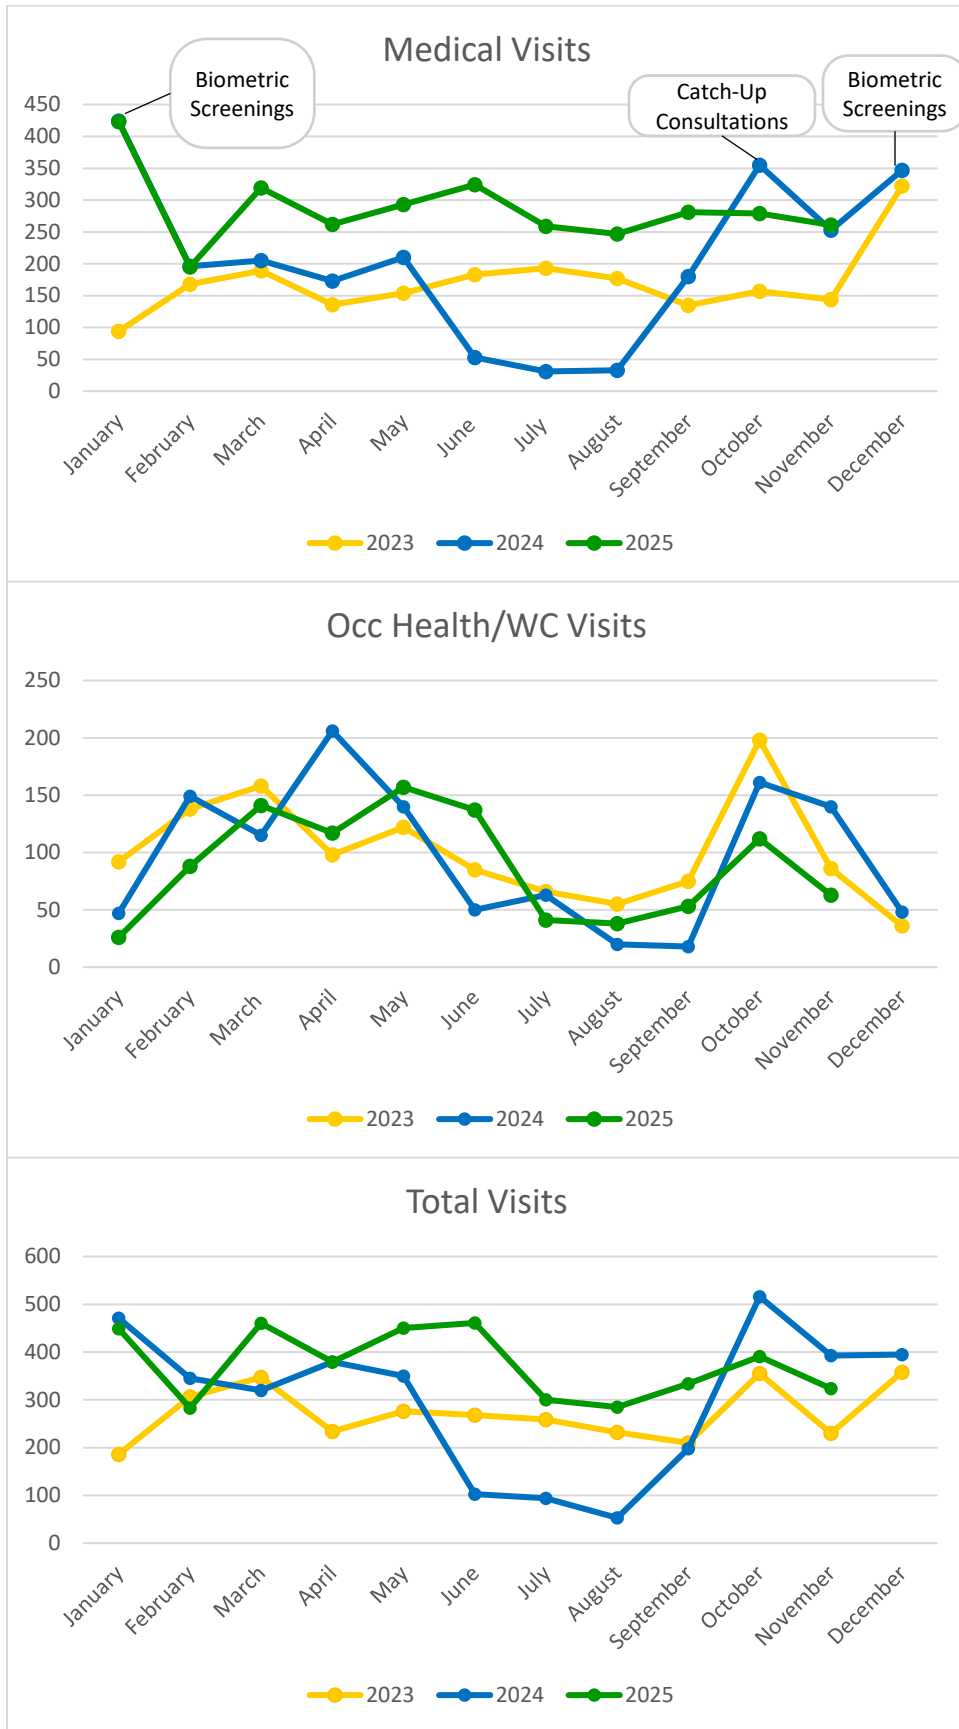

On December 2nd & 3rd, the City brought a masseuse onsite to provide complimentary 15-minute massages to employees. This is a part of the ongoing catalog of Wellness Events available to employees.

Human Resources will host an annual holiday event on December 18th 11:00am – 1:00pm. Employees can enjoy hot chocolate, cookies, and the beautifully decorated trees in the City Hall Atrium. We will also be collecting non-perishable items for Helping Hand to support families in need. Employees will receive a raffle ticket for each item donated for a chance to win a prize.

<p><u>History:</u> After postponing this item at their October 6, 2025, meeting, City Council held a workshop on November 13, 2025, to review the proposed revisions to the mural ordinance. ORDINANCE: 26-01

6C. ZONING ORDINANCE TEXT AMENDMENT ZTX-25-10: City staff has initiated a text amendment revising the definition of sign regarding murals.

Background:

The City’s current ordinance defines any painting that includes a commercial message as a sign. Murals are only exempt when they contain no commercial message at all. As a result, property owners who have reached their maximum sign allotment are unable to install murals if the design incorporates even a small reference to their business. This limitation has the unintended effect of discouraging murals, even when the artistic content is the dominant feature and the commercial reference is minimal.

Proposed Changes:

Staff is proposing a text amendment revising the definition of “sign” to allow murals that are primarily artistic in nature to include incidental commercial references without being regulated as signage. The amendment would permit up to ten percent of the total mural area to contain commercial content, such as a business name or logo. Importantly, the mural content would be in addition to the sign area otherwise permitted for the property, meaning it would not count against the maximum sign allotment. This change would support the creation of more murals, encourage public art, and provide recognition to sponsoring businesses while ensuring that murals remain primarily artistic in nature rather than serving as advertising.

The proposed amendment addresses **§ 23-36. - Sign regulations, (3) *Definitions*, (y) *Sign***, of *Chapter 23, Zoning*, and would appear in the Ordinance as follows (new matter underlined; deleted matter struck-through):

(y) *Sign*: Any device, fixture, painting (~~excluding artistic murals with no commercial message~~), or visual image using words, graphics, symbols, numbers, or letters designed and used for the purpose of communicating a message or attracting attention, including structures whose purpose can be reasonably construed to communicate a message or attract attention. Customary graphics found on soft drink and newspaper dispensers and similar machines shall not be considered as signs. Murals that are primarily artistic in nature shall not be considered signs. A mural may include incidental commercial references, provided that such commercial content does not exceed ten percent (10%) of the total mural area. This incidental commercial content shall be considered in addition to the signage otherwise permitted for the property and shall not count against the maximum sign allotment but is limited to fifteen percent (15%) of the total sign area otherwise allowed on the property.

According to § 23-4, *Amendments*, of the Zoning Ordinance, the advertisement requirement for Zoning Ordinance amendments is 15 days, and that advertisement notice has been met. The amendment is presented to the Planning Commission for a recommendation that will be forwarded to City Council at their next meeting scheduled for October 6, 2025.

Planning Commission Action:

The Planning Commission may recommend approval, recommend approval with modifications and/or conditions, or recommend denial of the proposal as submitted.

Alternative Motions

- 1) I move that the Planning Commission recommend approval of the zoning ordinance text amendment [ZTX-25-10] as submitted.

OR

- 2) I move that the Planning Commission recommend denial of the zoning ordinance text amendment [ZTX-25-10] as submitted.

REQUEST FOR CITY COUNCIL CONSIDERATION

Meeting Date: January 5, 2026

Agenda Item: 6B	Prepared by: L. Suzanne Pritchard, PLA, AICP, CFM
Agenda Section: Unfinished Business: Ordinance. Second Reading	Date: December 29, 2025
Subject: Amendment to the Parkway Group Planned Development District (PDD) revising Parcel Three of the McDowell Corporate Center [Z-25-17]	Division: Planning and Development

History:

The City Council approved the major amendment entitling the McDowell Corporate Center at their May 1, 2023, meeting.

Proposed Changes:

The applicant, Ed McDowell (owner), requests a major amendment to the McDowell Corporate Center within the Parkway Group (PDD) to allow for the development of Parcel 3. The proposed development consists of a two-story, 28,000-square-foot office and warehouse building with a height of approximately 40 feet. The building is oriented toward Highway 31 and the existing lake located on Parcel 5.

The site plan includes a 27,000-square-foot fenced hardstand area positioned between the building and Water Tower Road, with 73 parking spaces provided. Access is provided from the private drive that connects to Water Tower Road. A six-foot-wide sidewalk is proposed, extending around the lake and connecting to the East Coast Greenway to provide pedestrian access through the site and link it with the larger regional trail network.

Architectural elevations and landscape plans are included with the proposal, showing a modern façade design with monument signage and substantial landscaping. The landscape plan includes enhanced plantings and heavy screening along Water Tower Road to minimize visual impacts of the hardstand area. Conceptual stormwater and utility plans have been reviewed by the Public Works Department, and Grand Strand Water and Sewer Authority will provide water and sewer service.

Staff Review:

The amendment has been reviewed by the Department of Public Works, the Department of Public Safety, and the Department of Planning and Development; no concerns have been expressed.

Planning Commission Action:

The Planning Commission held a public hearing on November 11, 2025, and voted unanimously to recommend approval of the proposal. There was no public comment.

7A. MAJOR PLANNED DEVELOPMENT DISTRICT AMENDMENT Z-25-17: City staff received an application for a major amendment to the Parkway Group Planned Development District (PDD) revising parcel three at the McDowell Corporate Center.

Background

The Planning Commission recommended approval of the major amendment entitling the McDowell Corporate Center at their March 21, 2023, meeting. The development passed second reading at City Council on May 1, 2023. The Planning Commission subsequently approved the preliminary plat creating Commercial Drive at their February 20, 2024, meeting.

Proposed Changes

The applicant, Ed McDowell (owner), requests a major amendment to the McDowell Corporate Center within the Parkway Group (PDD) to allow for the development of Parcel 3. The proposed development consists of a two-story, 28,000-square-foot office and warehouse building with a height of approximately 40 feet. The building is oriented toward Highway 31 and the existing lake located on Parcel 5.

The site plan includes a 27,000-square-foot fenced hardstand area positioned between the building and Water Tower Road, with 73 parking spaces provided. Access is provided from the private drive that connects to Water Tower Road. A six-foot-wide sidewalk is proposed, extending around the lake and connecting to the East Coast Greenway to provide pedestrian access through the site and link it with the larger regional trail network.

Architectural elevations and landscape plans are included with the proposal, showing a modern façade design with monument signage and substantial landscaping. The landscape plan includes enhanced plantings and heavy screening along Water Tower Road to minimize visual impacts of the hardstand area. Conceptual stormwater and utility plans have been reviewed by the Public Works Department, and Grand Strand Water and Sewer Authority will provide water and sewer service.

RESTATED DEVELOPMENT AGREEMENT
FOR BAHAMA ISLAND PHASE II**

THIS FIRST AMENDMENT TO AMENDED AND RESTATED DEVELOPMENT AGREEMENT (“*First Amendment*”) is made and entered this ___ day of _____, 2025, by and between **PULTE HOME COMPANY, LLC**, a Michigan limited liability company, its affiliates, subsidiaries, successors and assigns (collectively “*Developer*”), and the governmental authority of the **CITY OF NORTH MYRTLE BEACH**, a body politic under the laws of the State of South Carolina (“*City*”). Capitalized terms used in this First Amendment and not otherwise defined herein shall have the meanings ascribed to them in the below-described Development Agreement, as hereby amended.

RECITALS:

WHEREAS, the City, the Developer, SW Int 90 Holdco, LLC, SW Int 90 Holdco II, LLC, Myrtle Beach ZD Group, LLC, SW Int 90 Holdco III, LLC and SW Int Holdco IV, LLC, entered into that certain Amended and Restated Development Agreement for Bahama Island Phase II, dated August 8, 2025 and recorded August 19, 2025 in Deed Book 4980 at Page 3416, in the Office of the Register of Deeds for Horry County, South Carolina (the “*Development Agreement*”); and

WHEREAS, subsequent to the execution of the Development Agreement, Pulte Home Company, LLC, as Developer, acquired all of the interest in the Property previously held by SW Int 90 Holdco, LLC, SW Int 90 Holdco II, LLC, Myrtle Beach ZD Group, LLC, SW Int 90 Holdco III, LLC and SW Int 90 Holdco IV, LLC; and

WHEREAS, the City and the Developer, as the remaining parties to the Development Agreement, now desire to amend said Development Agreement to reconcile a height limitation set for in the Bahama Island Planned Development District (the “*PDD*”), in the manner set forth below.

NOW THEREFORE, in consideration of the terms and conditions set forth herein, and other good and valuable consideration, the receipt and sufficiency of such consideration being hereby acknowledged, the City and Developer hereby agree as follows:

1. **INCORPORATION.** The above recitals are hereby incorporated into this Agreement.
2. **RECORDING.** Pursuant to Title 6, Chapter 31, Section 120 of the Code of Laws for the State of South Carolina, this First Amendment shall be recorded in the public records of Horry County, South Carolina, on or before the date which is Fourteen (14) days following the date on which the City enters into this First Amendment.
3. **AMENDMENT TO SECTION 10(D) USES AND DENSITY.** Section 10(D) of the Development Agreement set forth a height limitation of 35 feet. The 35 foot limitation, however, did not recognize the higher height limit for those single family detached lots located along the Atlantic Intracoastal Waterway (the “*AIWW*”), which lots are referred to as “*Piano Lots*” in the PDD. In order to reconcile the height limitations of the PDD and the Development Agreement, the

City and the Developer agree that Section 10(D) of the Development Agreement shall be deleted in its entirety, and replaced with the following:

“(D) **Uses and Density.** As a public benefit, Development of the Property shall be determined in accordance with the Code of Ordinances, as the same may be amended from time to time pursuant to this Agreement, provided that the Property and the applicable approved Master Plan shall provide for not more than 137 total Residential Units, at a maximum height not to exceed 35’ for all Single Family Detached Traditional Residential Units, and not to exceed 52’ for all Single Family Detached Piano Lot Residential Units. For purposes of this Agreement, and without regard to applicable floodplain, no Single Family Detached Piano Lot Residential Unit shall exceed 52’ measured from grade.”

4. **AMENDMENT TO SECTION 15 RESTRICTIVE COVENANTS.** Section 15 of the Development Agreement shall be deleted in its entirety, and replaced with the following:

“The obligations and public benefits agreed to and accepted by Developer set forth in this Agreement (the “**Restrictive Covenants**”) shall survive, continue in full force and effect without regard to the termination or expiration of this Agreement, and run with the Property as continuing obligations, public benefits and restrictions. The Developer covenants and agrees to include the applicability of the Restrictive Covenants in any sales and marketing materials provided to third-party purchasers, or to otherwise notify third-party purchasers of the Restrictive Covenants, and the Developer shall certify to the City that it has done so prior to the sale of any Residential Unit to a third-party purchaser. Developer further covenants and agrees that, to the extent the Property is encumbered by covenants, conditions and restrictions (the “**CCRs**”) as part of the development thereof, whether such CCRs are administered by an Owners Association or not, such CCRs shall include the Restrictive Covenants, the effect of which shall be to extend the term of the Restrictive Covenants. Prior to the execution of the CCRs, copies of the CCRs shall be sent to the City; provided, however, if there is a need to enforce any of the Restrictive Covenants set forth in the CCRs, it is up to the administrator of the CCRs, whether an Owners Association or not, to enforce such Restrictive Covenants. The City may, but is not required to, enforce the Restrictive Covenants set forth in the CCRs.

NOTICE TO SUBSEQUENT PURCHASERS OF THE PROPERTY: THE PROPERTY SHALL BE SUBJECT TO THE RESTRICTIVE COVENANTS AND THE CCRS, AND THE PROVISIONS OF THIS DEVELOPMENT AGREEMENT ARE BINDING ON SUBSEQUENT OWNERS OF THE PROPERTY.”

5. **SECTION 20.** The following is added as a new Section 20:

“Developer and the City agree to execute and record a separate Restrictive Covenants Agreement (the “**Restrictive Covenants Agreement**”) applicable to the Property and attached hereto as **Exhibit “I”**. The Restrictive Covenants Agreement shall be recorded simultaneously with the First Amendment and shall run with the land and be binding upon the parties and their respective successors and assigns.”

6. **NO FURTHER AMENDMENT.** Except as specifically amended by this First

Amendment, all of the terms and conditions of the Development Agreement shall remain in full force, unless and until amended in a writing signed by the City and the Developer.

7. **FORCE AND EFFECT.** If Developer has not properly executed this First Amendment and delivered the same to the City for execution within Sixty (60) days following final approval of this First Amendment by the City, then this First Amendment shall be null and void and of no further force or effect.

- 1. **INCORPORATION**. The above recitals are hereby incorporated into this Agreement.

2. **RESTRICTIVE COVENANTS.** The Property shall be subject to the following restrictive covenants which will run with the land, binding the parties and their respective successors and assigns:

(A) **Prohibition Against Conservation Easements and Other Restrictions on the Property.** Developer specifically covenants and agrees not to subject the Property to a conservation easement or other restrictive covenant, whereby any portion of the Property not shown as single-family homes or amenities on the approved Concept Plan is restricted for future development of such portion of the Property. Notwithstanding the above restriction, the parties agree that, for purposes of this Agreement, any conveyance by Developer of a portion of the Property which has been shown or depicted as common area, buffer, ponds, lakes, open spaces or the like to any Owners Association shall not be deemed such an easement or restriction, and shall not constitute a default by Developer, provided that such portion of the Property so conveyed, prior to the date of such conveyance to any Owners Association, has been clearly designated on a map or site plan submitted to the City, and approved by the City, as not being a portion of the Property to be developed for any residential or commercial use as a part of the development anticipated by the Development Agreement.

Developer further covenants and agrees that, to the extent the Property is later encumbered by covenants, conditions and restrictions (the “*CCRs*”) as part of the development thereof, whether such CCRs are administered by an Owners Association or not, such CCRs shall include the Restrictive Covenants, the effect of which shall be to extend the term of the Restrictive Covenants. Prior to the execution of the CCRs, copies of the CCRs shall be sent to the City; provided, however, if there is a need to enforce any of the Restrictive Covenants set forth in the CCRs, it is up to the administrator of the CCRs, whether an Owners Association or not, to enforce such Restrictive Covenants. 3. **INDEMNIFICATION.** In the event that any future resident or occupant of the Property initiates legal action related to the restrictive covenants set forth herein, the Developer shall indemnify, defend, and hold the City harmless from and against any and all claims, demands,

liabilities, damages, losses, costs, and expenses, including reasonable attorney's fees, arising out of or related to any legal action initiated by a future resident or occupant of the Property related to the restrictive covenants set forth herein.

ORDINANCE: _____

7A. ZONING ORDINANCE TEXT AMENDMENT ZTX-25-13: City staff has initiated a text amendment adding provisions for the reconstruction, repair, or re-establishment of non-conforming beach cabanas.

Background:

City Council postponed second reading of a text amendment on November 3 to allow a companion ordinance to be prepared addressing how the remaining cabana houses should be handled when damaged once the use is removed. Because cabana houses will become nonconforming uses after the definition and special exception are deleted, the ordinance must clarify how these existing structures may be repaired or reestablished when damaged.

Proposed Changes:

Staff is proposing a text amendment adding “beach cabana” to the list of nonconforming structures that may be repaired, rebuilt, or reestablished even if deterioration or damage exceeds seventy-five percent of replacement cost, provided no additional nonconformities are created. This update ensures the remaining cabana houses can continue to be maintained.

The proposed amendment addresses **§ 23-133. - Replacement of nonconforming use, building, or structure**, and would appear in the Ordinance as follows (new matter underlined; deleted matter struck-through):

Sec. 23-133. - Replacement of nonconforming use, building, or structure.

(1) A nonconforming building, structure or use shall not be ~~reestablished~~ re-established, ~~reoccupied~~ re-occupied or replaced with the same or similar building, structure or use after physical removal or relocation from its specific site location at the time of passage of this chapter.

(2) A nonconforming building or structure shall not be repaired, rebuilt, or altered after deterioration and/or damage exceeding seventy-five (75) percent of its replacement cost except in conformity with the provisions of this chapter.

(3) A nonconforming use shall not be reestablished after deterioration and/or damage to the building or structure exceeding seventy-five (75) percent of its replacement cost.

(4) The provisions of subsections 23-133(2) and (3) shall not apply to the reconstruction, repair, or ~~reestablishment~~ re-establishment of the following:

(a) Single-family structure used as single-family dwelling, including single-family structures and patio homes.

(b) A multifamily structure within a group development of two (2) or more multifamily structures where seventy-five (75) percent of the total group development has not been damaged.

(c) A structure containing townhouse dwellings within a group development of two (2) or more such structures where seventy-five (75) percent of the total group development has not been damaged.

(d) A structure containing a commercial use within a commercial center or when there are multiple commercial buildings on the property where seventy-five (75) percent of the total area of all principal buildings has not been damaged.

(e) A structure utilizing single-family design and development standards that serves as an oceanfront-related amenity for a larger residential development, formerly regulated as a “beach cabana house.”

(f) Such structures listed in (a) through (e) above may be repaired, rebuilt, altered or reestablished provided there is not an increase in the amount of land occupied by the structure, the height of the structure is not increased, the density is not increased, and other nonconformities are not created.

According to § 23-4, *Amendments*, of the Zoning Ordinance, the advertisement requirement for Zoning Ordinance amendments is 15 days, and that advertisement notice has been met. The amendment is presented to the Planning Commission for a recommendation that will be forwarded to City Council at their next meeting scheduled for January 5, 2026.

REQUEST FOR CITY COUNCIL CONSIDERATION

Meeting Date: January 5, 2026

Agenda Item: 7B	Prepared by: L. Suzanne Pritchard, PLA, AICP, CFM
Agenda Section: New Business: Ordinance. First Reading	Date: December 31, 2025
Subject: Amendments to Chapter 23, Zoning, of the Code of Ordinances of North Myrtle Beach, South Carolina, revising subdivision signs [ZTX-25-14]	Division: Planning and Development

Background:

The existing standards for subdivision entrance signage were written at a time when most neighborhood signs were small, freestanding elements. In recent years, design trends have shifted toward larger architectural features, often incorporating columns, walls, or structures that serve as both entry monumentation and signage. Additionally, under the current ordinance, when signage is mounted to a structure, the entire structure is counted as part of the sign area, which limits design flexibility.

Proposal:

Staff proposes revising the allowed signage for subdivisions with more than 10 lots. This proposal retains the existing dimensional and placement standards for subdivision entrance signs, but it also allows signs that exceed those standards (including size, height, placement, or supporting structure) to be permitted by special exception through the Board of Zoning Appeals. The special exception process ensures that any increase is reviewed publicly, evaluated against adopted criteria, and approved only when appropriate for its context.

Under the existing criteria, an applicant would need to demonstrate that the proposed sign:

- Meets applicable development standards
- Is in substantial harmony with surrounding development
- Is not injurious to adjoining property
- Does not discourage permitted uses in the vicinity, and
- Satisfies any reasonable conditions the Board may impose to enhance compatibility.

This structure gives the City a review mechanism for subdivision entrance features that fall outside the standard limits, while ensuring that approval is tied to context and neighborhood character.

Planning Commission Action:

The Planning Commission conducted a public hearing on December 2, 2025, and voted unanimously to recommend approval of the zoning amendment. There was no public comment.

Recommended Action:

Approve or deny the ordinance on first reading

7B. ZONING ORDINANCE TEXT AMENDMENT ZTX-25-14: City staff has initiated a text amendment revising subdivision and non-commercial signs.

Background:

The existing standards for subdivision entrance signage were written at a time when most neighborhood signs were small, freestanding elements. In recent years, design trends have shifted toward larger architectural features, often incorporating columns, walls, or structures that serve as both entry monumentation and signage. Under the current ordinance, when signage is mounted to a structure, the entire structure is counted as part of the sign area which limits design flexibility. The same amendment also originally included revisions to the section on non-commercial signs (currently titled “campaign signs”) to ensure the City’s regulations remain content neutral under recent First Amendment case law. However, given the evolving legal interpretations surrounding sign regulation, staff has elected to defer that portion of the amendment for further review to ensure the City’s approach is fully defensible.

Proposed Changes:

Staff proposes revising the allowed signage for subdivisions with more than 10 lots. This proposal retains the existing dimensional and placement standards for subdivision entrance signs, but it also will allow signs that exceed those standards (including size, height, placement, or supporting structure) to be permitted only by special exception through the board of zoning appeals. The special exception process ensures that any increase is reviewed publicly, evaluated against adopted criteria, and approved only when appropriate for its context.

Under the existing BZA criteria, an applicant would need to demonstrate that the proposed sign:

- Meets applicable development standards
- Is in substantial harmony with surrounding development
- Is not injurious to adjoining property
- Does not discourage permitted uses in the vicinity. and
- Satisfies any reasonable conditions the Board may impose to enhance compatibility.

This structure gives the City a review mechanism for subdivision entrance features that fall outside the standard limits, while ensuring that approval is tied to context and neighborhood character.

The proposed amendment addresses **§ 23-36. – Sign Regulations, subsection (10) Zoning district sign regulations: subsection (a)**, and would appear in the Ordinance as follows (new matter underlined; deleted matter struck-through):

Sec. 23-36. – Sign Regulations.

(10) *Zoning district sign regulations:*

(a) Signs permitted in ~~R-1, R-1A,~~ CR, R-1, R-1A, R-1B, R-1E, R-2, R-2A, R-2B, R-3, R-4, and R-4I Districts:

1. In subdivisions with more than ten (10) lots, two (2) subdivision entrance signs per principal entrance are allowed. Such signs shall designate the subdivision by name or symbol only and shall be placed on the face of a masonry entrance wall to said subdivision or residential district.

i. Such signs shall not exceed twenty (20) square feet per sign face and an aggregate area of forty (40) square feet per entrance, nor shall they exceed a height of seven (7) feet. If a double-faced sign is used without the entrance walls, only one such sign is allowed per entrance.

ii. Subdivision entrance signs that exceed any of the above specifications, including but not limited to sign area, height, placement, or supporting structure, may be permitted only by special exception pursuant to Section 23-64 when site conditions or design circumstances justify a departure from the standard limits.

2. In subdivisions with ten (10) or fewer lots, one (1) subdivision identification sign is allowed. Such sign shall not exceed twenty (20) feet in area nor five (5) feet in height.

3. One (1) identification sign for each principal use allowed for religious, public, educational and public recreational uses provided it shall not exceed fifty (50) square feet in area per sign face. The maximum height of the sign shall be ten (10) feet if freestanding.

4. Multifamily structures and group developments are permitted building or development identification sign(s) not to exceed sixty-four (64) square feet in area. Only one (1) freestanding sign per street frontage is allowed not to exceed ten (10) feet in height.

5. Hotels, motels, inns and lodges shall be permitted business identification signs, which signs shall not exceed a combined area of one hundred (100) square feet. Only one (1) freestanding sign per street frontage is allowed not to exceed thirty (30) feet in height. Wall signs existing prior to February 1, 1989, within the R-4 District only, shall not be included in the combined area calculation.

According to § 23-4, *Amendments*, of the Zoning Ordinance, the advertisement requirement for Zoning Ordinance amendments is 15 days, and that advertisement notice has been met. The amendment is presented to the Planning Commission for a recommendation that will be forwarded to City Council at their next meeting scheduled for January 5, 2026.

Planning Commission Action:

REQUEST FOR CITY COUNCIL CONSIDERATION

Meeting Date: January 5, 2026

Agenda Item: 7C	Prepared by: L. Suzanne Pritchard, PLA, AICP, CFM
Agenda Section: New Business: Ordinance. First Reading	Date: December 31, 2025
Subject: Amendments to Chapter 12, Health and Sanitation, of the Code of Ordinances of North Myrtle Beach, South Carolina, adding nuisance parties and impeding public passage [O-25-1]	Division: Planning and Development

Background:

The City of North Myrtle Beach Police Department regularly responds to large gatherings and parties that create safety concerns for surrounding neighborhoods. While the City’s ordinances already address many of the individual behaviors associated with these events, such as excessive noise, disorderly conduct, littering, and illegal parking, those provisions are dispersed across multiple sections of the Code and do not provide a clear mechanism for addressing the gathering itself.

In recent years, officers have reported recurring situations where gatherings spill into public rights-of-way, block streets or driveways, or continue into the early morning hours. These conditions can delay emergency response, create unsafe pedestrian and traffic conditions, and place an undue burden on surrounding residents.

Proposal:

The proposed ordinance establishes clear definitions and enforcement authority for nuisance parties and for impeding public passage, allowing law enforcement to address unsafe gatherings more effectively while remaining consistent with existing City regulations. The ordinance authorizes officers to order the cessation and dispersal of nuisance parties, including the removal of non-residents when the continued presence of a gathering reasonably presents a risk to public safety or neighborhood peace. It also authorizes the immediate removal of obstructions that block streets, sidewalks, or emergency access points.

These provisions clarify and strengthen the City’s ability to respond to situations that already constitute public nuisances under the current definition. The intent is to protect public safety, preserve emergency access, and support neighborhood quality of life while maintaining appropriate enforcement discretion and public protections.

Recommended Action:

Approve or deny the proposed ordinance on first reading

Note:¹A five-foot side yard setback shall be required for substandard lots of record.

Planning Commission Action:

As per the Zoning Ordinance Section 23-4, *Amendments*, the Planning Commission shall prepare a report and make recommendations on any proposed amendment to the North Myrtle Beach Zoning Ordinance, including the Zoning Map, stating its findings and its evaluation of the request. In making its report, the Commission shall consider the following factors:

- a) The relationship of the request to the Comprehensive Plan:

The Future Land Use map contained in the 2018 Comprehensive Plan recommends Residential Suburban (RS) and Resource, Protection, & Conservation (RPC) as land use classes for the subject area. The principal permitted uses noted in the compliance index for RS include primarily single-family lots, small farms and farm related uses such as produce stands, and mobile homes on individual lots. The recommended primary zoning district is Single-Family R-1; Single-Family Residential Low-Medium Density (R-1A), R-1B are the secondary zoning district alternatives. The principal permitted uses noted in the compliance index for RPC include formal parks, informal open spaces, and protecting land directly adjacent to marshes, estuaries, and waterways from intense development. The recommended primary zoning district is Conservation Preservation (CP); R-1, R-1A, and R-1B are the secondary zoning district alternatives.

The proposed zoning designation, R-1B, is a primary recommended zoning district for RS and a secondary recommended zoning district for RPC within the Compliance Index for the subject property.

- b) Whether the request violates or supports the Plan:

Chapter 5, “The Way We Grow,” of the 2018 Comprehensive Plan identifies the RS future land use classification as follows: The purpose of this classification is to define, protect, and provide low density, single-family detached housing areas where designated, and to prohibit any development that would compromise existing residential characteristics. In addition, these areas are intended to provide for in-fill and expansion of existing neighborhoods and subdivisions. Standards and densities for these areas are designated to reflect existing conditions. This area is also intended to allow incorporation of property west of the waterway at densities typical of inland development. Primarily single-family lots, small farms and farm related uses such as produce stands, and mobile homes on individual lots, excluding large mobile home parks, are compatible uses here. This category allows up to five dwelling units per acre (du/acre).

The RPC future land use classification is identified as follows: Intended to preserve and protect scenic and natural resources; provide network of critical open space and non-renewable resources; includes formal parks, informal open spaces, and protecting land directly adjacent to marshes, estuaries, and waterways from intense development.

The proposed R-1B zoning is consistent with the Residential Suburban land use classification, but inconsistent with the RPC land use classification found in the 2018 Comprehensive Plan.

- c) Whether the uses permitted by the proposed change would be appropriate in the area concerned:

The purpose of the R-1B zoning district is, “To preserve and protect the character of existing neighborhoods and subdivisions, and to prohibit any uses which would compromise or alter existing conditions and uses. Also, these districts are intended to encourage residential infilling and expansion of existing neighborhoods and subdivisions. Development land uses permitted in each are designed to reflect existing conditions and enhance the prospects of ‘lie development.’”

The uses permitted in the R-1B district would be appropriate in the area. Two large tracts flanking the property share the R-1B zoning.

- d) Whether adequate public-school facilities, roads and other public services exist or can be provided to serve the needs of the development likely to take place because of such change, and the consequence of such change:

Access subject to City encroachment permit approval.

- e) Whether the proposed change is in accord with any existing or proposed plans for providing public water supply and sanitary sewer to the area:

Public water and sewer are available.

As a matter of policy, no request to change the text of the ordinance or the map shall be acted upon favorably, except:

- (a) Where necessary to implement the comprehensive plan, or
- (b) To correct an original mistake or manifest error in the regulations or map, or
- (c) To recognize substantial change or changing conditions or circumstances in a particular locality, or
- (d) To recognize changes in technology, the style of living, or manner of doing business.

This rezoning request is presented to the Planning Commission for a recommendation that will be forwarded to the City Council at their next meeting scheduled for October 6, 2025. Should the Planning Commission desire to forward a positive recommendation to the City Council, one of the reasons should be included in the report.
